

Hi! I'm Whitney, a mother of 2 lovely girls. I'm passionate about breastfeeding and supporting mothers in their breastfeeding journey.

Having breastfed both my children, and currently tandem-feeding them, I understand the challenges that women may face while breastfeeding and how overwhelming and hard the experience can be.

As a trained Breastfeeding Peer Supporter, I would love to help and support you with any breastfeeding related problems or questions you may have, or just to give you a word of encouragement!

I'm available to help in any way - by text, phone call, email, social media, or even a home visit.
